Education

Northeastern University

B.S. Computer Engineering and
Computer Science, 2019

notable courses

Object-Oriented Design
Database Design
Algorithms and Data
Fundamentals of Networks
Calculus and Physics for Engineers
Linear Algebra and Differential Equations
Probability and Statistics

The Haverford School

Class of 2014, Honors Student,
President of Model UN, Technical
Theatre Excellence Award

Skills

Languages

Python
Java
C++ ...
HTML + CSS
Javascript ..
jQuery ..

expert
intermediate ...
proficient ..

Frameworks

Flask / Jinja 2
Bootstrap
Angular ..
React ..

Databases

MongoDB
MySQL ..

Infrastructure / Tools

Git
Amazon Web Services ..
DigitalOcean

Experience

Autodesk (Summer 2017)

Intern, Application Security Engineer

Worked to design and develop secure applications and smart security processes. Tasked with embedding security in the full spectrum of products from inception to deployment and testing. Assessed and responded to threats and thwarted their efforts to compromise products and the they operate in.

FirstFuel Software (2016 - 2017)

Co-op, Software Developer and Energy Analyst

Led the development of an energy analytics platform that enables dynamic energy savings calculations and advanced visualization. Deployed a fully responsive web application and complex data model to complete automation tasks and improve data consistency. Reduced building audit time by 10-12%. Pioneered company usage of single-purpose Python/Flask web applications.

Nixon Uniform Service & Medical (Summer 2014)

Intern, Network and IT Support Analyst

Led an extensive network mapping project to identify areas of vulnerability and single points of failure. Proposed plan to phase out local intranet and physical servers in favor of a cloud based Citrix solution with multi-point VPN access.

System Solutions, Inc. (2012 - 2014)

Intern, Project Manager

Responsible for working with clients to plan and execute dynamic IT solutions. Designed cloud server architecture for large commercial customers. Analyzed start-up ventures to estimate engineering infrastructure needs.
